

FRONX

YOUR NEXT
Move

PAKISTAN'S FIRST-EVER XUV

Embrace the ultimate fusion of elegance, power, and versatility with Pakistan's first-ever XUV. Crafted for those who demand nothing less than excellence, it's the perfect choice for individuals poised to elevate their journey and embrace the extraordinary.

XCLUSIVELY BUILT FOR *The World*

For roads that don't stay the same - from mountain bends to city rush, from desert heat to monsoon showers, FRONX is made to move with confidence, keeping you grounded, comfortable, and in command.

XCEPTIONAL DESIGN THAT *Moves You*

FRONX stands out with an exceptional design that feels futuristic, bold, and distinctly modern. Crafted to turn heads, every line reflects confidence and every detail exhibits style.

Guides You in *The Dark*

Adjust the headlight angle for optimal visibility and safer driving in different road conditions.

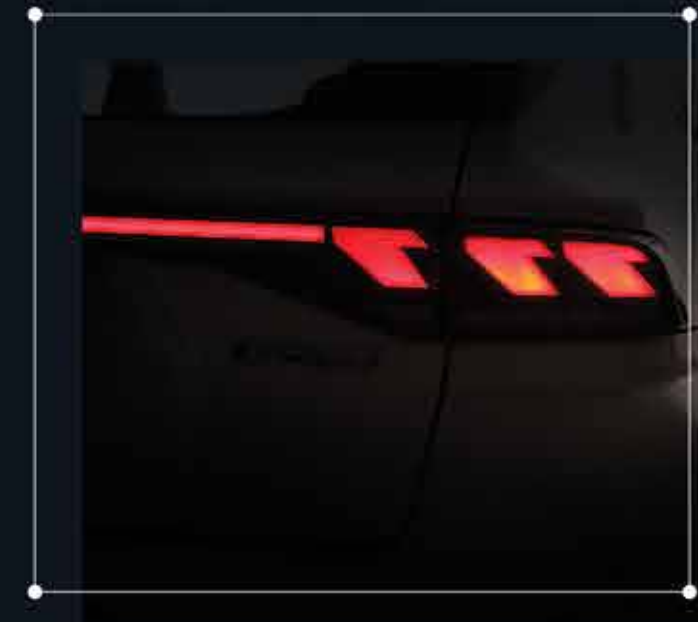

Follow Me / Lead Me to *Home / Vehicle*

Headlights stay on after locking or unlocking the car, lighting your way in the dark - fully adjustable from the touchscreen.

Backlighting that *Lights The Way*

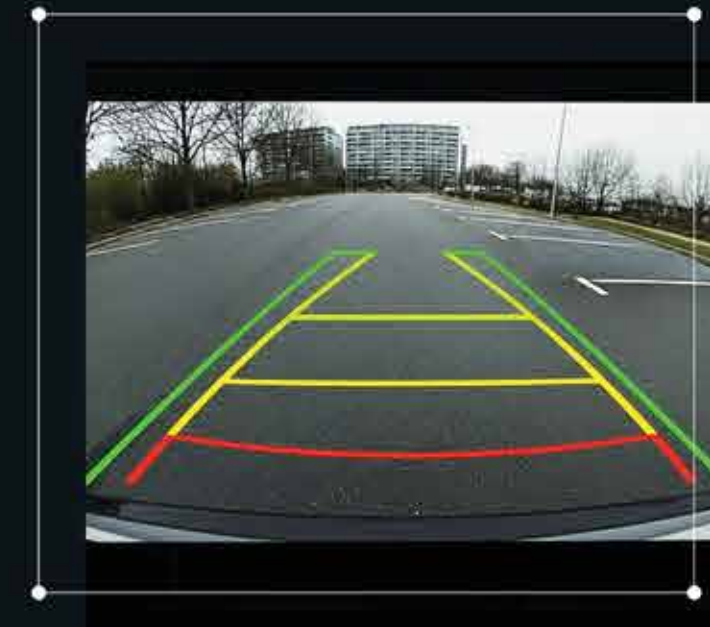

Designed for a bold, modern look that enhances visibility and style.

Guides You to the *Perfect Spot*

Equipped with parking sensors and a rear camera for effortless and safe parking, ensuring precise and worry-free parking every time.

Clear Vision, *Effortless Parking*

The rear camera provides a wide-angle view, making reversing safer and easier with guiding lines.

The image shows the front and rear interior of a car. The front seats are upholstered in dark red leather with black stitching. The dashboard and center console are black. A large infotainment screen is mounted in the center of the dashboard. The rear seats are also upholstered in dark red leather with black stitching. The car has a panoramic sunroof. The background shows a city skyline with tall buildings.

X PANSIVE SPACE, *Unrivaled Comfort*

Whether you're driving solo or with family, the spacious interior ensures comfort for everyone. With advanced NVH (Noise, Vibration, and Harshness) technology, enjoy a smoother, quieter ride, free from unwanted distractions

ENSURES YOUR COMFORT ON

Every Mile

Climate control keeps the cabin at the perfect temperature, ensuring comfort in every weather.

Keeps Everyone Comfortable

Along the Journey

Dedicated rear AC vents ensure rapid and uniform cooling for every passenger, eliminating cabin hot spots so that you experience immediate relief.

YOUR EFFORTLESS JOURNEY STARTS WITH A

Cruise Control Gives You the Freedom to Focus on *The Journey Ahead*

Cruise control allows you to effortlessly maintain your desired speed, providing a smooth and controlled driving experience on every journey.

Telescopic & Tilt Adjustable *Steering*

Telescopic & Tilt adjustable steering wheel delivers a responsive, precise drive, paired with personalized comfort and features that give you confidence along the journey.

Keep Your Luggage Safe So *You Can Explore More*

A luggage capacity of 304 litres* lets you take all you need, whether you are going for a weekend getaway or a spin in the city. What's more - a low opening height allows you to load and unload items with ease.

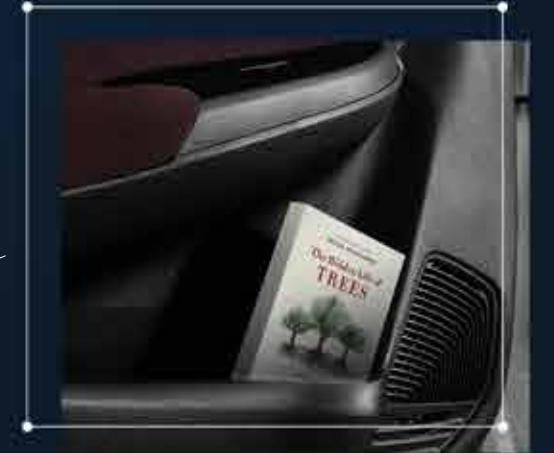

304 L (Standard)
605 L (60:40 Split Seats Folded)

ENDLESS INFOTAINMENT FOR *The Road Ahead*

The 9-inch HD touchscreen delivers seamless Apple CarPlay® and Android Auto™ connectivity via USB or Wi-Fi. With features like voice commands, Bluetooth® music playback, and customizable screens, it offers a smooth and intuitive driving experience.

Apple CarPlay

Apple CarPlay lets you use Siri for directions, calls, music, and messages via voice or touch

androidauto

Android Auto™ lets you control messages, directions, and media with voice or the steering wheel button

Voice Commands

XTRAORDINARY *Safety*

The FRONX comes equipped with a total of six airbags: dual front, side and curtain airbags, ensuring the utmost protection for both the driver and co-passengers.

PRIORITIZING SAFETY FOR *Your Loved Ones*

FRONX includes ISOFIX child seat* anchorages and secure seating systems, giving you peace of mind knowing little passengers are safe on every journey.

ADAPTS TO YOUR *Every Need*

Easily adjust the driver's seat height to find your optimal position for maximum comfort, visibility and control.

* Child seat not available with the standard model

Conquer Every *Incline*

The Hill Hold Control function makes driving uphill effortless. It is designed to prevent the car from rolling backwards on inclined and steep surfaces when transitioning from the brake to the accelerator.

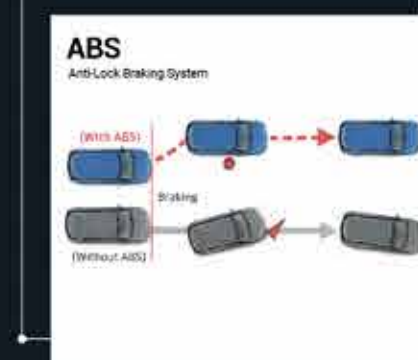

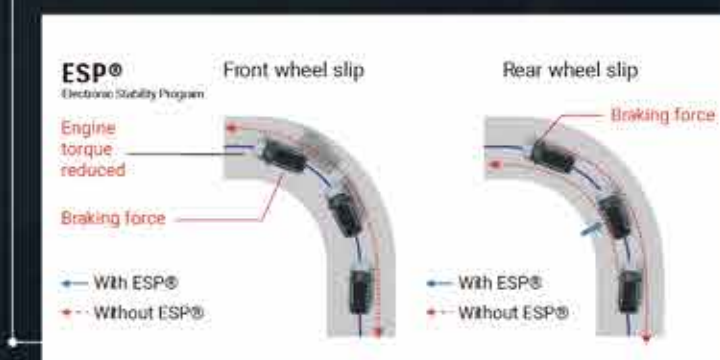

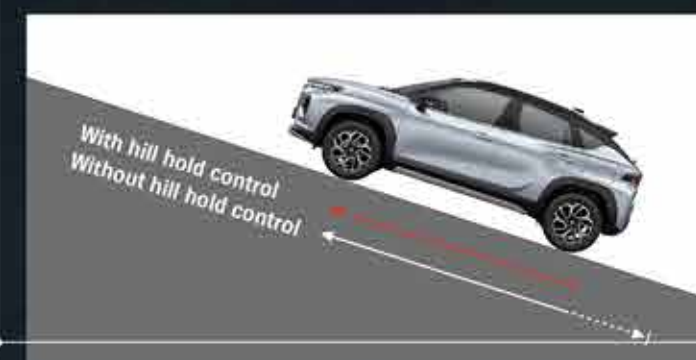

The Art of *Turning*

Engineered for agility, the FRONX features a tight 4.8-metre turning radius, making every U-turn and parking manoeuvre feel effortlessly precise and seamless.

Drive with *Confidence*

With Anti-Lock Braking System (ABS) for responsive braking and Electronic Stability Program (ESP) for added control, every drive feels safer and more assured.

ADVANCED DRIVER ASSISTANCE *Systems*

FRONX ADAS brings a greater sense of assurance to every journey, helping every drive feel more composed, controlled, and effortless. With intelligent support working flawlessly in the background, the road ahead feels more certain, whatever comes along the way.

Adapted Cruise *Control*

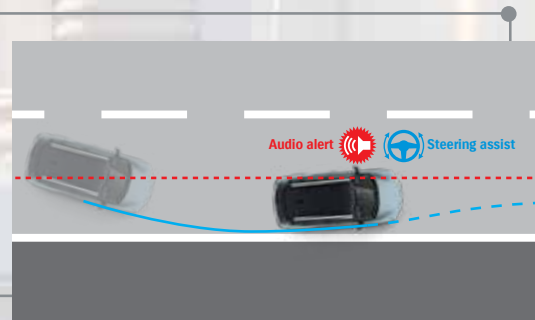

Designed for effortless highway driving, Adaptive Cruise Control automatically adjusts your speed to maintain a safe distance from the vehicle ahead. The result is a smoother, more relaxed journey with fewer interruptions.

Blind Spot *Monitor*

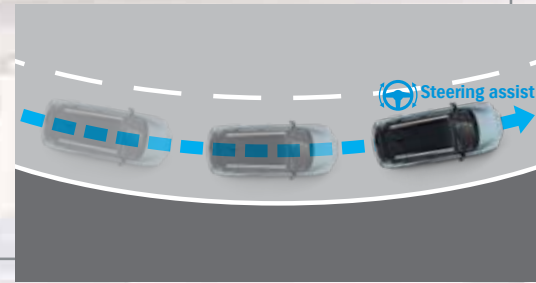

Designed to make every lane change feel more confident, Blind Spot Monitor keeps watch over areas that can be difficult to see. When another vehicle enters your blind spot, it alerts you through the side mirror, helping you move with greater awareness and peace of mind.

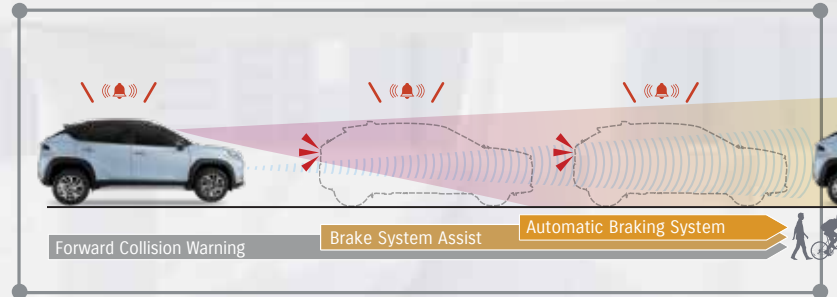

Lane Departure Prevention

The system provides steering assistance to prevent the vehicle from unintentionally leaving its lane.

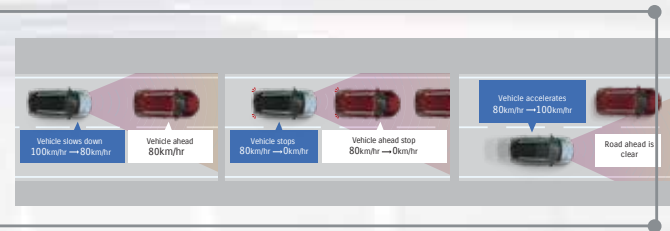

Lane Keep Assist

Keeps the vehicle centred within its lane while Adaptive Cruise Control (ACC) is active by detecting lane markings on both sides of the road. It also provides steering assistance to help maintain a safe distance when the system detects a vehicle ahead.

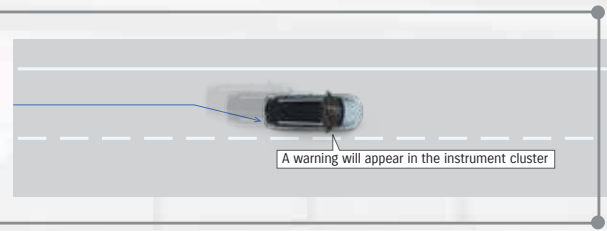

Dual Sensor Brake Support

When the system detects an object in your lane that could result in a collision, it alerts the driver, allowing them time to take evasive action or reduce the impact if a collision cannot be avoided.

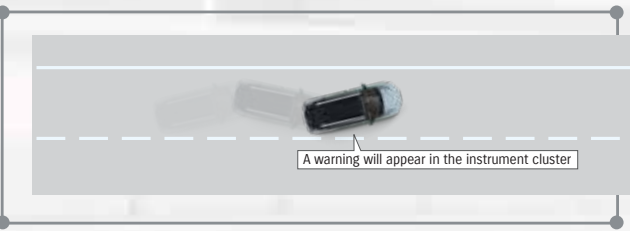

Adaptive Cruise Control

Experience effortless highway driving with Adaptive Cruise Control, which automatically adjusts speed and maintains a safe distance from the vehicle ahead, including stop-and-go traffic.

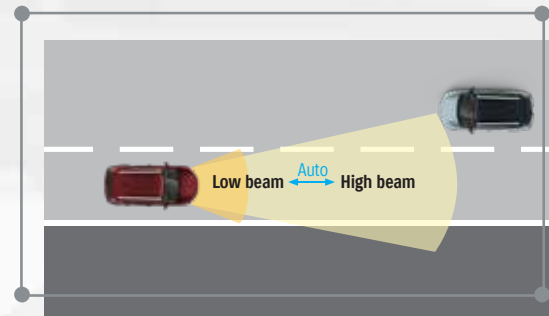

Lane Departure Warning

While driving, the system detects lane markings and road conditions on both sides of the vehicle to predict its path. If it determines that the vehicle is unintentionally drifting out of its lane, it alerts the driver through visual warnings in the instrument cluster, accompanied by audible alerts or steering wheel vibration.

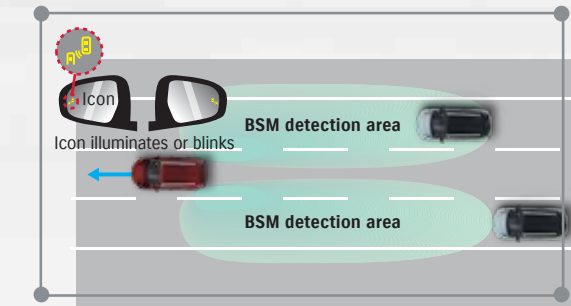

Vehicle Swaying Warning

Used when driving long distances, the system detects the lane markings on both sides and analyzes the vehicle's driving pattern. If the system determines that the vehicle is being driven unstably (not travelling straight or swaying), it provides an audible warning and a visual indicator in the meter cluster, prompting the driver to take a short break.

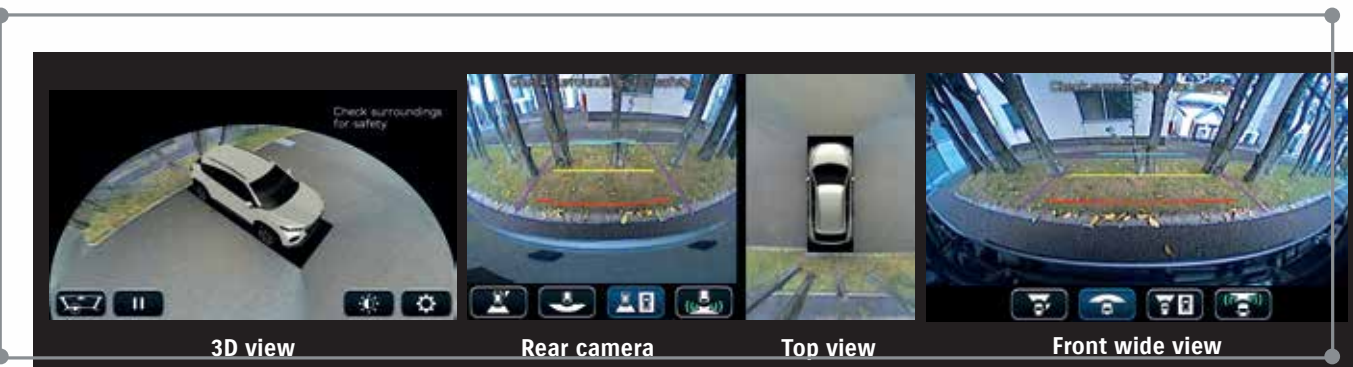

High Beam Assist

Detects the headlights of oncoming and surrounding vehicles, then automatically switches between high and low beams.

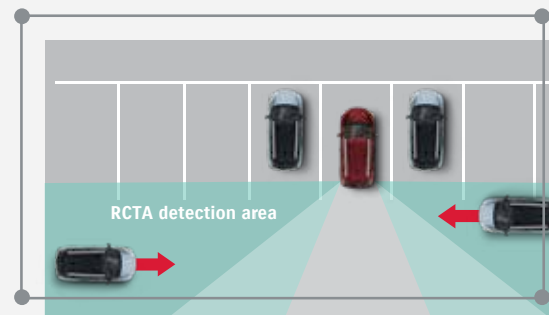

Blind Spot Monitor

Helps the driver check for approaching vehicles from behind when changing lanes by alerting them to vehicles approaching from the rear.

Around View Monitor

Navigate tight parking spaces with confidence using the 360° Camera and Rear View Camera for a clear view of your surroundings.

Rear Cross Traffic Alert

When reversing in a parking area or similar space, the system detects vehicles approaching from the left or right from behind the car. It alerts the driver through the instrument cluster display, flashing rearview indicator, and an audible warning.

Head-Up Display

Stay focused on the road with key driving information displayed directly in your line of sight.

XCEEDING PERFORMANCE

Beyond Limits

Engineered to push boundaries, its exceptional performance elevates your journey to unprecedented heights. Every acceleration, every turn, every mile delivered with unparalleled precision and power, ensuring you're always ahead.

Drive Without *Distraction*

The FRONX is built on Suzuki's HEARTECT platform, providing a lightweight, rigid structure that enhances performance, fuel efficiency and handling. It improves safety by dispersing impact energy and also reduces noise and vibration.

Gives You a Quiet and *Safe Drive*

The FRONX's design centres around Suzuki's lightweight, impact-absorbing TECT concept, resulting in a structure that efficiently absorbs and diffuses energy in the event of a collision.

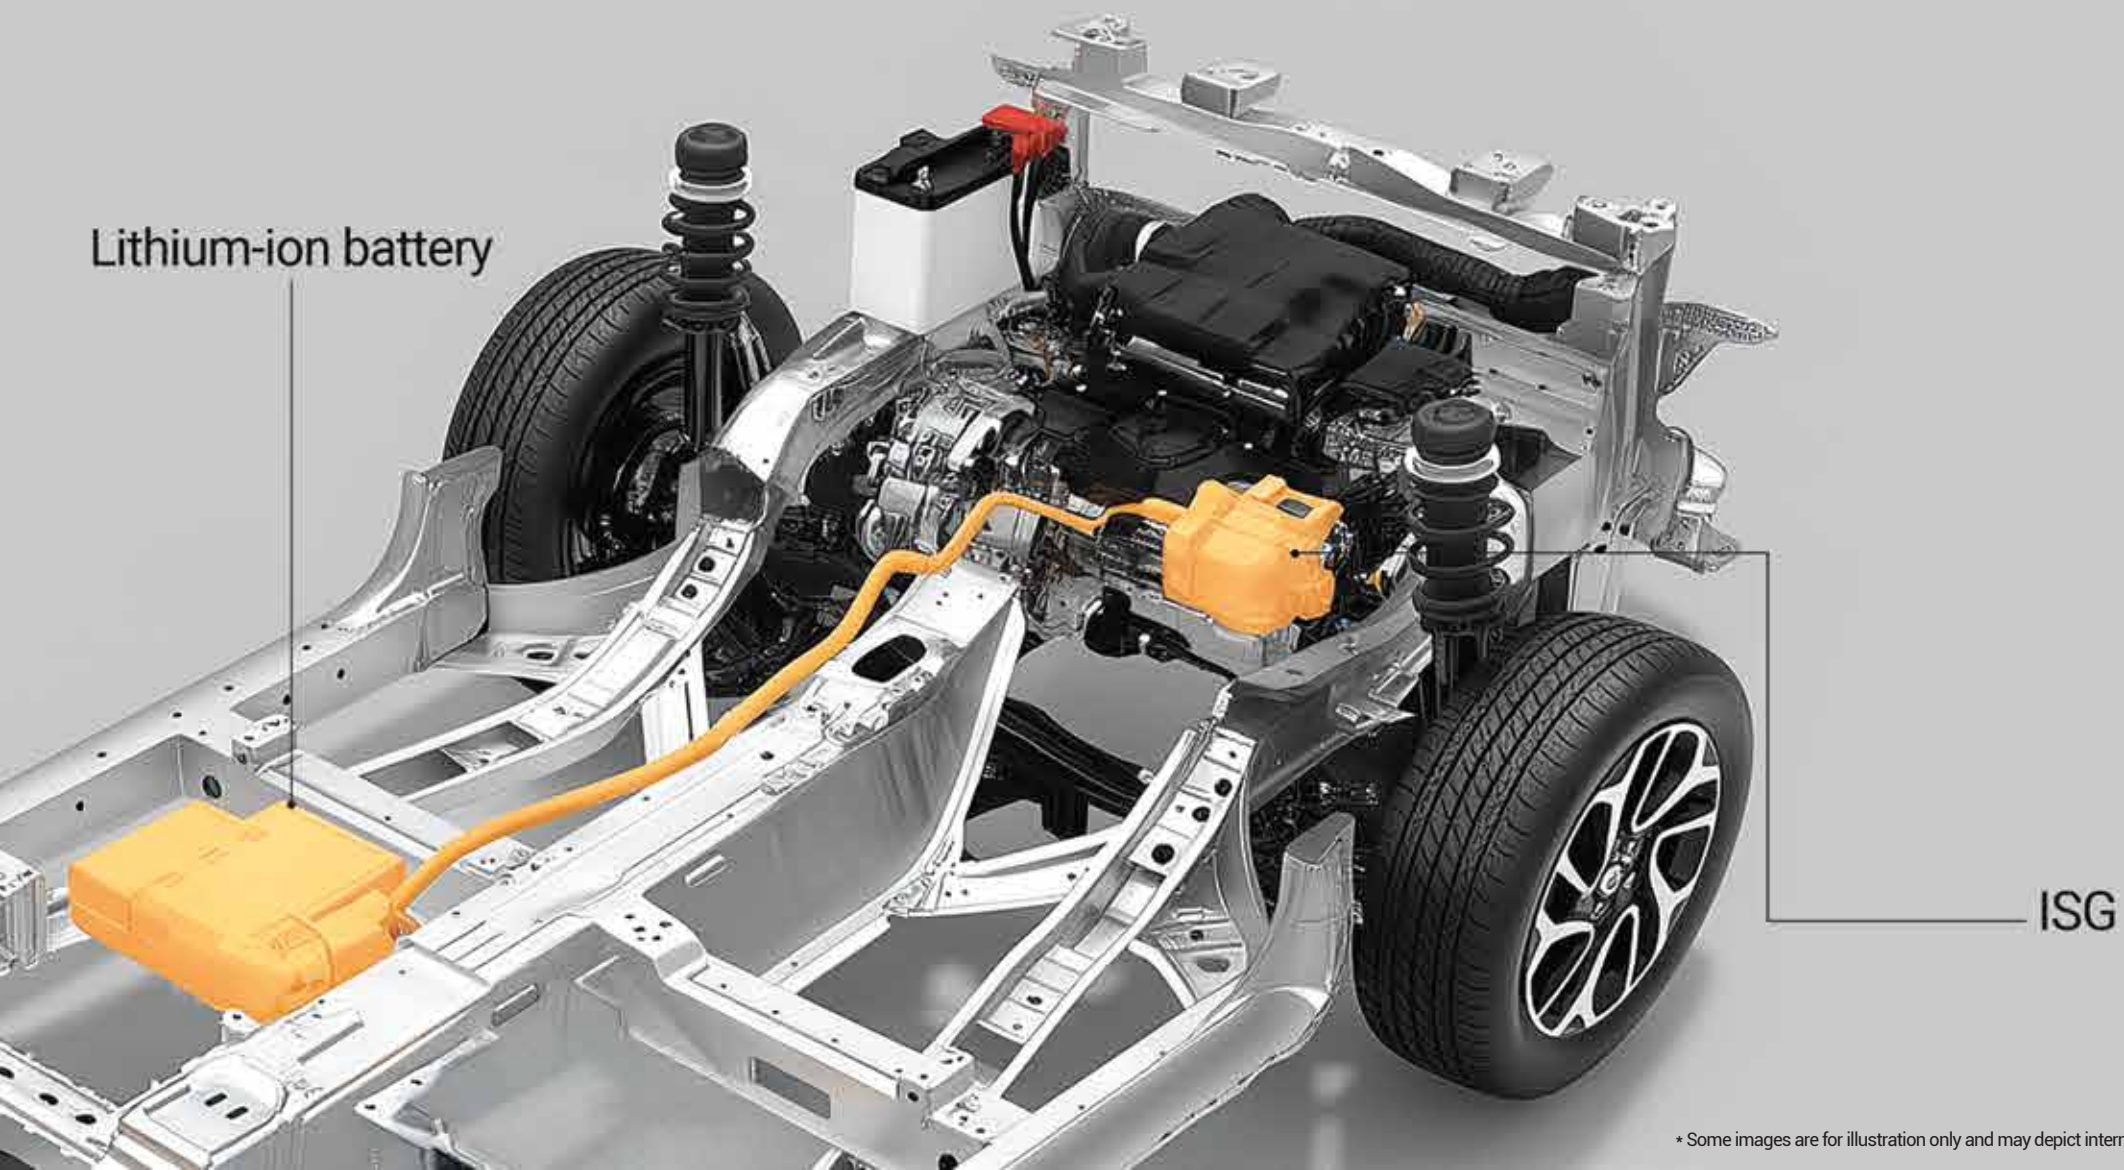

Shift with *Confidence*

6-speed automatic transmission is available with the FRONX. Acceleration performance at starting and fuel efficiency are optimised at high speeds, with paddle shifts enhancing control and driving engagement. Those who prefer manual transmission can also select a smooth-shifting 5MT.

Revolutionary Performance in *Every Drive*

The K-series 1.5-litre engine provides strong output, high fuel efficiency, and low emissions, with features like dual fuel injectors, a high compression ratio, cooled Exhaust Gas Recirculation system (**EGR**) for better economy and emissions, roller rocker arms, and optimised valve timing through VVT.

HYBRID *Technology*

This smart hybrid vehicle by Suzuki features the light, compact, hybrid system that reflects Suzuki's environmentally conscious approach to automobile design, and incorporates an **Integrated Starter Generator (ISG)** and a **high-efficiency lithium-ion battery** with excellent charging and power supply performance.

* Some images are for illustration only and may depict international variants; local specifications and features may vary.

Comprehensive Vehicle Warranty*

Enjoy complete peace of mind with coverage for **3 years** or **60,000 kilometres**, whichever comes first.

Hybrid System Warranty*

The hybrid system is protected for up to **5 years** or **100,000 kilometres**, whichever comes first.
